

## **CAHPS® Hospice Survey Consent to Share Responses (English)**

One supplemental question must be included in the mail and telephone questionnaire **if** the hospice wishes to view the survey responses linked to respondents' name and other identifying information. The survey question, referred to as the Consent to Share Responses, must be printed in the mail questionnaire and included in the telephone questionnaire. The respondent must check the "Yes" response option in the mail questionnaire or answer "Yes" to the question during the telephone interview for the survey vendor to provide the hospice with the respondent's answers linked to the respondent's name and identifying information. The question is typically placed at the end of the questionnaire or interview, as the last question.

### **Consent to Share Responses for Mail Survey Questionnaire**

The hospice that provided care to your family member may want to review your answers so that they can decide how to address any concerns that you have. We will not share your answers to this survey linked to your name unless you give your permission for this information to be shared with the hospice.

Do you give your permission to provide your answers to this survey linked to your name to the hospice?

- Yes, I give my permission to share my name and survey responses with the hospice.
- No, I do not give permission to share my name and survey responses with the hospice.
